

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The tonnage of Ships entered and cleared in the Lake and River trade between Canada and the United States was as follows :—

7,930,923	9,072,545	8,124,134	10,411,649	11,362,953	12,160,631	12,183,056	North America : Dominion of Canada (Years ended 30th June).

(*m*) Figures cannot be given owing to the destruction of books by fire. (*n*) Years ended 30th September (1885 to 1888).
(*p*) Including "clearances" of Mail Steamers, for which "entries" only were shown in 1885.
(*q*) *Net* tonnage; the St. Vincent returns for years prior to 1888 show the *gross* tonnage of vessels.
(*r*) Exclusive of trade between Trinidad and Tobago, treated as coastwise from 1st January, 1889, when these islands were united to form one Colony. (*s*) The figures for 1893 and prior years represent the tonnage of vessels entered and cleared *with cargoes* only. Prior to the passing of the "Customs Ordinance, 1894," on the 1st October of that year, manifests of steamers were only required to be put in if cargoes were brought or taken away in such steamers. The returns of the vessels entered or cleared *in ballast* were, consequently, very imperfect. (*t*) Inclusive of transports carrying stores, but exclusive of those conveying troops. (*u*) Exclusive of transports. (*v*) *See* Note (*s*), p. 9.

* In this return no distinction is drawn between those who work and those whom they support by their work. The whole population depending upon the occupation is included, order to indicate the respective sustaining power of the different orders.

† Order III. is intended to refer solely to those not in the employ of the State making the return, but it is probable that in some cases the servants of the State itself have been included.

‡ Order XXIII. includes those not enumerated by occupation in certain wild tracts of Rajputana, Kashmir, and the Bombay States.

"Net circulation" includes the value of notes held by Government in the Reserve and other treasuries.
